CZAR OF RUSSIA WILL REORGANIZE HIS FORCES NOW IN THE FAR EAST.

WILL ALSO AUGMENT THEM

IMMENSE ARMY OF RUSSIANS IS TO BE SENT TO CRUSH THE JAPANESE.

With the purpose of forcing the war with Japan to a speedy termination, the emperor of Russia has taken steps to reorganize and reinforce the fighting force in the far East. A second army is to be created, under command of General Gripenberg, a veteran of many wars, and it is expected that within a comparatively short time there will be armies aggregating 600,000 to 700,000 men ready to take the aggressive against the Japanese. It is believed that Grand Duke Nicholas Michaelovitch will be made commander-in-chief of the Russian armies in the far East, with a soldier of more varied experience as his chief of staff. At Mukden it is believed that the Japanese will not make a frontal attack upon that city, but will seek to engage the Russians north or northeast of there, a purpose dictated by strategic reasons as well as by the desire not to offend the Chinese by making the sacred tombs of the emperors the scene of bloodshed.

Severe fighting at Port Arthur is reported to have taken place Sept. 19-21, and several important strongholds are said to have been captured by the Japanese. Heavy firing was heard also on Sept. 24, but details of the fighting at that time are lacking.

CHANGE TO BE MADE

RUSSIAN ARMY IN MANCHURIA WILL BE REORGANIZED AND REINFORCED.

St. Petersburg, Sept. 26.—The division and reorganization of the Manchurian army, regarding which there have been rumors ever since the battle of Liaoyang, was officially announced Sunday in an imperial rescript appointing General Gripenberg, commander of the Third army corps, in the providence of Vilna, as commander of the Second army now being mobilized for immediate dispatch to the far East, leaving Kuropatkin in command of the First army. The emperor is personally convinced that the political as well as the military prestige of the empire is at stake and that every other consideration must give way before the exigencies of war. The resources of the empire in men and money must be drained, if necessary, in order to turn the scale and vindicate the power of Russia.

The organization amounts to formal notice to the world, as the emperor frankly explains in his rescript, that he intends to vastly increase the number of troops at the theater of war in order to force the struggle to a successful issue in the shortest possible time. It is intended to silence definitely all talk of foreign intervention by the announcement that Russia means to fight out the issue with Japan on the field of battle. Probably 200,000 additional men will be placed in the field. Five corps, the Third, Fourth, Fifth, Eighth and Sixteenth, are already destined for the front and the talk is that five more corps will be sent forward. Eventually the creation of this Second army involves the selection of a commander-in-chief.

Kuropatkin Not Supreme.

Not only is there no intimation in the rescript that General Kuropatkin will have command of both armies, but he is distinctly placed upon the same footing as General Gripenberg. In the best informed circles there is little idea that Viceroy Alexieff, the present nominal commander-in-chief, will exercise the actual functions of commander of the 600,000 or 700,000 men that Russia has resolved to put in the field. It is the best opinion that Grand Duke Nicholas Michaelovitch, inspector general of cavalry, occupying in the war with Japan the position held by his father in the war with Turkey. There are various reports regarding Viceroy Alexieff's ultimate destiny. It is declared in some quarters that he will be recalled, and Grand Duke Nicholas become viceroy as well as commander-in-chief. It is also said upon apparently equal authority that Alexieff will return as chancellor of the empire, succeeding Count Lamsdorff. None of these reports are definitely confirmable.

Grand Duke Nicholas is still a young man, not yet forty-five, with much of his father's dash, energy and resolution. There is reason to believe that he will favor a winter campaign against the Japanese.

WANT TO DESTROY SHIPS.

Japs Trying to Sink Russian War Vessels at Port Arthur.

London, Sept. 26.—The Daily Mail's Chefoo correspondent says that the Japanese are now devoting their energies to an attempt to drive the Russian fleet from Port Arthur. The Japanese assault is directed against

the forts commanding the harbor, while Admiral Togo with his fleet reinforced is waiting outside and has placed powerful cruisers and torpedo boat destroyers in positions to prevent the possible use of Tsingtau or treaty ports by the Russian vessels. Japan, the correspondent says, is determined to destroy the Russian ships before it is possible for the Baltic fleet to arrive.

Circum-Baikal Railway Opened. Irkutsk, Sept. 26.—The Circum-Baikal railway was opened Sunday. REALIZE ENORMITY OF TASK.

But the Japs Are Confident of Defeating Russia.

Tokio, Sept. 26.—An increasing feeling of sobriety and seriousness marks the popular attitude toward the war. It is doubtful that the masses appreciated in the beginning the seriousness of the task of expelling Russia from Manchuria. They had an easy confidence in the ability of the army and navy to reduce the fortress of Port Arthur, destroy the Russian fleet and crush General Kuropatkin. The prolongation of the siege, the losses before Port Arthur and General Kuropatkin's escape at Liaoyang have brought a general appreciation of the magnitude of the task and destroys hope of an early peace, based on the conclusion of sweeping victories. Events at Port Arthur and Liaoyang have warned the Japanese people to prepare for a long and trying war. Confidence in the final outcome, however, remains unshaken, and the nation has resolutely and determinedly settled down, prepared to make sacrifices and pay the price that success demands. The strain of the war and the drain upon the country's resources have not yet been felt to any extent among the people. Some lines of business are suffering, but the aggregate foreign and domestic trade exceeds that of 1903. The crops, particularly rice, are the largest ever known.

Vacant Places Quickly Filled.

Death from wounds and sickness has overtaken thousands of soldiers, but their vacant places have been quickly filled, with the supply of able-bodied men anxious to fight equal to all possible demands. Munitions, supplies and money in hand indicate the ability of the country to wage war without embarrassment and vigorously for another year. The completion during the winter of a light railway between Antung and Liaoyang will give the army three lines of supply.

There is general confidence in the ability of Field Marshal Marquis Oyama to drive General Kuropatkin into Harbin and to successfully resist a re-invasion of Manchuria. The early possession of Port Arthur is also confidently expected.

There is no gloom among the people. They are simply sobered in the face of an unfinished war.

WANT NO FIGHT NEAR MUKDEN.

Reason for Japanese Avoiding Battle at That Place.

Mukden, Sept. 26.—The halt in active operations around Mukden is believed to be due not only to the fatigue of the Japanese troops and the slowness in getting up necessary additional supplies, but to a distinct understanding between the Chinese and Japanese that there shall be no bloodshed near the "holy city," where the Chinese emperors are buried. It is expected, however, that there will be fighting north or northeast of Mukden, possibly on a larger scale even than Liaoyang. The weather has become settled and the best season of the year is now commencing, with prospects of a warm, dry autumn.

CRUISERS LEAVE PORT SAID.

Russian Warships Sail From There for Libau.

Port Said, Sept. 26.—The Russian volunteer fleet steamers Smolensk, with 350 tons of coal, and the St. Petersburg, with 100 tons of coal, have sailed from here, ostensibly for Libau. The orders to the British cruiser Furious to be in readiness to sail on two hours notice have been cancelled.

Japs Repulsed With Heavy Losses.

St. Petersburg, Sept. 26.—A dispatch received here from Chefoo states that the Japanese, having augmented their artillery with twelve-inch guns, began a fresh bombardment of Port Arthur on Sept. 19, lasting till Sept. 19, when it culminated with a heavy attack, which was repulsed with enormous losses.

LOUIS FLEISCHMAN IS DEAD.

Noted New York Philanthropist Succumbs to Paralysis.

New York, Sept. 26.—Louis Fleischman, the millionaire baker and philanthropist, died here early Sunday at his home in West Seventy-seventh street of paralysis. Mr. Fleischman was born in 1836 near Olmutz, Moravia.

He fought in the war of 1866 against the Prussians and won distinction in the battle of Sadowa. He remained in the army until 1874, when he resigned to emigrate to America.

He opened a model bakery in New York soon afterward and at Christmas, in 1876, he established the unique charity known as the "bread line" and ever since has distributed unsold bread nightly to all who have applied. The "bread line" of applicants grew until as many as 500 leaves a night were handed out and in winter cups of warm coffee were given with the bread. Mr. Fleischman also established an employment bureau, went personally among the unfortunates in his "bread line" and found work for many men.

His wife, three sons and two daughters survive him.

JAPS CAPTURE FORTS

TAKE SEVERAL IMPORTANT RUSSIAN POSITIONS AROUND PORT ARTHUR.

END SEEMS NEAR AT HAND

HEART OF RUSSIAN FORTRESS IS MENACED BY THE ARMIES OF THE MIKADO.

Chefoo, Sept. 26.—As a result of the battle before Port Arthur which began on Sept. 19, the Japanese succeeded in capturing several important positions and Sunday the Russian tenure of the big forts guarding the north, northeast and northwest sides of the town is seriously threatened. Chinese information places the Japanese losses under 3,000 for the three days' fighting, and this comparatively small casualty list is due to the excessive care used by the Japanese in making their preparations for the advance. Russian sources, however, claim to have information that the Japanese losses were unusually severe, amounting to fully three times the number mentioned above. Possibly the most important capture during the three days' fighting was that of Fort Kuropatkin, which, while of minor value with regard to preventing the entrance into the town of the Japanese, had been constructed for the purpose of protecting the source of the garrison's water supply. The control of this water supply is now in the hands of the Japanese.

Awakened by Heavy Artillery.

As was announced in these dispatches on Sept. 20, the battle began before daybreak on Sept. 19. At this hour the citizens and the garrison of Port Arthur, after the enjoyment of weeks of comparative security, awoke to the thunderous reports of artillery along the line extending from the west of Itz mountains to Rihlung and Kikwan mountains. This was but a preface to the assault which was destined to result in the capture of three new and important Russian positions, together with six small but annoying forts lying between Shushiyen and Rihlung mountain. During the day and night of Sept. 19 and until noon of Sept. 20, the bombardment continued without cessation, and the many shells falling from quarters which previously had been silent, made it obvious that the Japanese had at least succeeded either in mounting many guns in new positions or in strengthening their old positions. The infantry fighting during this period was comparatively trivial.

At noon on Sept. 20 the Japanese right and center, the former being to the west and the latter to the east of the railroad, commenced the advance. The troops made use of the trenches and frequent natural cover that lay in their way. The small forts to the south of Shushiyen

Resisted This Advance

but briefly, their garrisons not being strong numerically. Since the beginning of the bombardment artillery fire from Fort Kuropatkin had been growing steadily weaker, and it having become apparent that it had been practically silenced, the Japanese assaulted the fort. Fort Kuropatkin is situated to the south of Palichuang and to the northeast of the parade ground, on a low hill. It derives its name from the time when General Kuropatkin inspected it, pointed out the weakness of the position, and ordered that it be strengthened as far as possible because of the necessity of protecting the water supply. While situated in the chain of main forts, Fort Kuropatkin never has been as strong as the others, and after severe fighting it fell into the hands of the Japanese.

This capture lessens further the security of the fort on Rihlung mountain, which is now threatened from a new quarter as well as from Palichuang.

At 5 o'clock on the afternoon of Sept. 20 the Japanese captured a supplementary fort which from the lower ground threatens the fort on Itz mountain. This ended the heavy fighting for that day, although the Japanese later were compelled to resist several sorties.

Japs Capture the Fort.

During the night the heavy bombardment of the Russian positions continued, the Japanese fire being directed with particular vigor against another supplementary fort 3,000 yards to the west of the fort on Itz mountain, and regarded as highly important because of its bearing on the Itz and Anshu mountain forts. The next day, after having pounded this position unmercifully and until its fire had slackened visibly, the Japanese delivered their assault. They met with a stubborn resistance. They were exposed to the fire of machine guns and rifles and they made frantic efforts to reach the crest of the slope. They leaped over trenches and embankments and tore down the entanglements in their path until at length they entered the fort. The Russian troops there refused to desert their position, even in the face of the superior numbers which confronted them, and desperate hand to hand fighting occurred inside the fort. Eventually almost the entire Russian garrison was either killed or wounded.

Military experts here are of the opinion that if the Japanese capture either Rihlung or Kikwan forts or the Itz and Anshu forts the doom of Port

Arthur is sealed, and for this reason the importance of the results obtained by the Japanese in their latest assaults upon the Russian positions is obvious.

One Killed and Two Injured.

Blackfoot, Ida., Sept. 26.—As a result of an attempt by tramps to hold up a Japanese section gang here Sunday, Sheriff C. E. F. Sweet was killed, Section Foreman W. E. Fitzgerald fatally wounded, and an unknown tramp fatally injured.

GREETING FAIRBANKS

WESTERN FRIENDS OF ROOSEVELT MEET VICE PRESIDENTIAL CANDIDATE.

Mandan, N. D., Sept. 26.—Senator Fairbanks and party spent Sunday crossing the state of North Dakota. They were joined at St. Paul by Senator Hansbrough of this state, and leaving that city on the Northern Pacific at midnight Saturday night they reached Fargo at 7 o'clock.

The run from that point to Jamestown was made rapidly. At Jamestown the train was held for two hours in order to afford the vice presidential candidate and his friends an opportunity to attend church.

A special religious service was held at the opera house, which was attended by Senators Fairbanks, Dooliver and Hansbrough, who sat together in a private box.

At Dawson, the great duck hunting center of this state, there was a brief stop to allow Senator Hansbrough and friends to fill the larder of the dining car with canvas backs and teal. At Bismarck an hour was spent in driving about the city, and in a visit to Fort Lincoln.

Probably the most interesting experience of the twenty-four hours was had at Medora, in the extreme western portion of the state, which twenty years ago was for two years the home of President Roosevelt. He was engaged there in the cattle business and left many friends there who were at the railroad siding to meet the president's running mate and his companions when the train drew in. They gave the vice presidential candidate a characteristic welcome, and he expressed great pleasure over the meeting with them and over the experience generally. The night was spent at Glendive, Mont., the first stopping point in that state.

MOUNT SUIVIUS VERY ACTIVE.

Eruptions Increase in Force and in Destructiveness.

Naples, Sept. 26.—The eruption of Mount Suiivius continues to increase in force and is now more violent than at any time since 1872. Redhot stones are hurled to a height of 1,600 feet, falling down the flanks of the mountain with a deafening sound. The director of the observatory says that between 5 o'clock Sunday morning and 6 o'clock Sunday afternoon his instruments registered 1,844 violent explosions, and that one stone thrown out weighed about two tons. Lava flowing from the crater has melted the metal of the funicular railway, destroyed the upper station and burned the wooden huts in which guides live. All vegetation within a radius of one mile of the crater has disappeared. Several earthquake shocks were felt Sunday. Some of the people in the surrounding villages have left their homes and are camped in the open air. The curiosity of tourists to approach the volcano is such that a large number of carabinieri guards have been detailed to prevent them crossing prescribed limits.

Will Join Japanese Forces.

Tokio, Sept. 26.—Prince Charles of Hohenzollern arrived here Sunday and was given an official welcome. He will meet certain high Japanese officials Monday, after which he will join the Japanese forces in the field as the German representative.

Should Watch United States.

Opinion of British Paper on Shipping Legislation.

London, Sept. 26.—The Morning Post, in a strong editorial on the shipping question, says that German energy is conspicuous, but that there is even a greater need to keep a careful eye on the shipping legislation of the United States. The paper suggests the withdrawal of the privilege from American owned vessels of freedom to the British coastal trade as a means to recovering a freedom to negotiate for reciprocal concessions.

CONDITION IS VERY GRAVE.

Special Train Carries Medicine to Lady Curzon.

London, Sept. 26.—According to the Daily Mail, oxygen was administered to Lady Curzon Sunday and anti-streptococcus serum was injected hypodermically as an antidote to blood poisoning. These remedies were hurriedly fetched from London by a special train to Walmer castle, ordinary traffic being meanwhile held up to allow the special to pass.

Sir Thomas Barlow, in reply to late inquiries, said:

"Peritonitis has been considerably localized and the patient's condition is as comfortable as could be expected."

King Edward, who is a frequent inquirer, and receives constant information, made another sympathetic inquiry regarding the condition of Lady Curzon late Sunday night.

JUSTICE FOR RUSSIAN JEWS.

New Russian Official Gives His Pledge to Hebrews.

Vilna, Sept. 26.—Prince Sviatopolk-Mirsky, recently transferred from the office of governor general of Vilna to that of minister of the interior, before departing for his new post Saturday, delivered an address before members of the Jewish community. He said he was well acquainted with the wants of the Jews and would approach the important Jewish question, which would shortly come up for serious consideration, with a full knowledge of the problem it presented. He expected the Jews on their side to have perfect confidence in government measures. Jews might rest fully satisfied that, having been called to the front of justice by the side of the emperor, he would see that justice was always done them.

FATAL TRAIN WRECK.

One Person Killed and Five Others Injured.

Rochester, N. Y., Sept. 26.—Six people who were injured in a wreck on the New York Central railroad a short distance east of Lyons early Sunday morning were brought to Rochester hospital. Three sleepers on the Western Express, a fast train bound from New York to Chicago, left the track because of a split rail and threw the passengers to the floors of the coaches. Just as the train came to a standstill a fast freight eastbound ran into the derailed cars. Mrs. Newman Erbs, wife of the vice president of the Pere Marquette railroad, who was brought here with both limbs cut off, died at the hospital. Mr. Erbs was bruised and injured.

Grand Duke Nicholas is still a young man, not yet forty-five, with much of his father's dash, energy and resolution. There is reason to believe that he will favor a winter campaign against the Japanese.

WANT TO DESTROY SHIPS.

Japs Trying to Sink Russian War Vessels at Port Arthur.

London, Sept. 26.—The Daily Mail's Chefoo correspondent says that the Japanese are now devoting their energies to an attempt to drive the Russian fleet from Port Arthur. The Japanese assault is directed against

the forts commanding the harbor, while Admiral Togo with his fleet reinforced is waiting outside and has placed powerful cruisers and torpedo boat destroyers in positions to prevent the possible use of Tsingtau or treaty ports by the Russian vessels. Japan the correspondent says, is determined to destroy the Russian ships before it is possible for the Baltic fleet to arrive.

Circum-Baikal Railway Opened. Irkutsk, Sept. 26.—The Circum-Baikal railway was opened Sunday.

REALIZE ENORMITY OF TASK.

But the Japs Are Confident of Defeating Russia.

Tokio, Sept. 26.—An increasing feeling of sobriety and seriousness marks the popular attitude toward the war. It is doubtful that the masses appreciated in the beginning the seriousness of the task of expelling Russia from Manchuria. They had an easy confidence in the ability of the army and navy to reduce the fortress of Port Arthur, destroy the Russian fleet and crush General Kuropatkin. The prolongation of the siege, the losses before Port Arthur and General Kuropatkin's escape at Liaoyang have brought a general appreciation of the magnitude of the task and destroys hope of an early peace, based on the conclusion of sweeping victories. Events at Port Arthur and Liaoyang have warned the Japanese people to prepare for a long and trying war. Confidence in the final outcome, however, remains unshaken, and the nation has resolved to make sacrifices and pay the price that success demands. The strain of the war and the drain upon the country's resources have not yet been felt to any extent among the people. Some lines of business are suffering, but the aggregate foreign and domestic trade exceeds that of 1903. The crops, particularly rice, are the largest ever known.

Vacant Places Quickly Filled.

Death from wounds and sickness has overtaken thousands of soldiers, but their vacant places have been quickly filled, with the supply of able-bodied men anxious to fight equal to all possible demands. Munitions, supplies and money in hand indicate the ability of the country to wage war without embarrassment and vigorously for another year. The completion during the winter of a light railway between Antung and Liaoyang will give the army three lines of supply.

There is general confidence in the ability of Field Marshal Marquis Oyama to drive General Kuropatkin into Harbin and to successfully resist a re-invasion of Manchuria. The early possession of Port Arthur is also confidently expected.

There is no gloom among the people. They are simply sobered in the face of an unfinished war.

WANT NO FIGHT NEAR MUKDEN.

Reason for Japanese Avoiding Battle at That Place.

Mukden, Sept. 26.—The halt in active operations around Mukden is believed to be due not only to the fatigue of the Japanese troops and the slowness in getting up necessary additional supplies, but to a distinct understanding between the Chinese and Japanese that there shall be no bloodshed near the "holy city," where the Chinese emperors are buried. It is expected, however, that there will be fighting north or northeast of Mukden, possibly on a larger scale even than Liaoyang. The weather has become settled and the best season of the year is now commencing, with prospects of a warm, dry autumn.

CRUISERS LEAVE PORT SAID.

Russian Warships Sail From There for Libau.

Port Said, Sept. 26.—The Russian volunteer fleet, steamers Smolensk, with 350 tons of coal, and the St. Petersburg, with 100 tons of coal, have sailed from here, ostensibly for Libau. The orders to the British cruiser Furious to be in readiness to sail on two hours notice have been cancelled.

Japs Repulsed With Heavy Losses.

St. Petersburg, Sept. 26.—A dispatch received here from Chefoo states that the Japanese, having augmented their artillery with twelve-inch guns, began a fresh bombardment of Port Arthur on Sept. 19, lasting till Sept. 19, when it culminated with a heavy attack, which was repulsed with enormous losses.

LOUIS FLEISCHMAN IS DEAD.

Noted New York Philanthropist Succumbs to Paralysis.

New York, Sept. 26.—Louis Fleischman, the millionaire baker and philanthropist, died here early Sunday at his home in West Seventy-seventh street of paralysis. Mr. Fleischman was born in 1836 near Olmutz, Moravia.

He fought in the war of 1866 against the Prussians and won distinction in the battle of Sadowa. He remained in the army until 1874, when he resigned to emigrate to America.

He opened a model bakery in New York soon afterward and at Christmas, in 1876, he established the unique charity known as the "bread line" and ever since has distributed unsold bread nightly to all who have applied. The "bread line" of applicants grew until as many as 500 leaves a night were handed out and in winter cups of warm coffee were given with the bread. Mr. Fleischman also established an employment bureau, went personally among the unfortunates in his "bread line" and found work for many men.

His wife, three sons and two daughters survive him.

JAPS CAPTURE FORTS

TAKE SEVERAL IMPORTANT RUSSIAN POSITIONS AROUND PORT ARTHUR.

END SEEMS NEAR AT HAND

HEART OF RUSSIAN FORTRESS IS MENACED BY THE ARMIES OF THE MIKADO.

Chefoo, Sept. 26.—As a result of the battle before Port Arthur which began on Sept. 19, the Japanese succeeded in capturing several important positions and Sunday the Russian tenure of the big forts guarding the north, northeast and northwest sides of the town is seriously threatened. Chinese information places the Japanese losses under 3,000 for the three days' fighting, and this comparatively small casualty list is due to the excessive care used by the Japanese in making their preparations for the advance. Russian sources, however, claim to have information that the Japanese losses were unusually severe, amounting to fully three times the number mentioned above. Possibly the most important capture during the three days' fighting was that of Fort Kuropatkin, which, while of minor value with regard to preventing the entrance into the town of the Japanese, had been constructed for the purpose of protecting the source of the garrison's water supply. The control of this water supply is now in the hands of the Japanese.

Awakened by Heavy Artillery.

As was announced in these dispatches on Sept. 20, the battle began before daybreak on Sept. 19. At this hour the citizens and the garrison of Port Arthur, after the enjoyment of weeks of comparative security, awoke to the thunderous reports of artillery along the line extending from the west of Itz mountains to Rihlung and Kikwan mountains. This was but a preface to the assault which was destined to result in the capture of three new and important Russian positions, together with six small but annoying forts lying between Shushiyen and Rihlung mountain. During the day and night of Sept. 19 and until noon of Sept. 20, the bombardment continued without cessation, and the many shells falling from quarters which previously had been silent, made it obvious that the Japanese had at least succeeded either in mounting many guns in new positions or in strengthening their old positions. The infantry fighting during this period was comparatively trivial.

At noon on Sept. 20 the Japanese right and center, the former being to the west and the latter to the east of the railroad, commenced the advance. The troops made use of the trenches and infrequent natural cover that lay in their way. The small forts to the south of Shushiyen

Resisted This Advance

but briefly, their garrisons not being strong numerically. Since the beginning of the bombardment artillery fire from Port Kuropatkin had been growing steadily weaker, and it having become apparent that it had been practically silenced, the Japanese assaulted the fort. Fort Kuropatkin is situated to the south of Palichuang and to the northeast of the parade ground, on a low hill. It derives its name from the time when General Kuropatkin inspected it, pointed out the weakness of the position, and ordered that it be strengthened as far as possible because of the necessity of protecting the water supply. While situated in the chain of main forts, Fort Kuropatkin never has been as strong as the others, and after severe fighting it fell into the hands of the Japanese.

This capture lessens further the security of the fort on Rihlung mountain, which is now threatened from a new quarter as well as from Palichuang.

At 5 o'clock on the afternoon of Sept. 20 the Japanese captured a supplementary fort which from the lower ground threatens the fort on Itz mountain. This ended the heavy fighting for that day, although the Japanese later were compelled to resist several sorties.

Japs Capture the Fort.

During the night the heavy bombardment of the Russian positions continued, the Japanese fire being directed with particular vigor against another supplementary fort 3,000 yards to the west of the fort on Itz mountain, and regarded as highly important because of its bearing on the Itz and Anshu mountain forts. The next day, after having pounded this position unmercifully and until its fire had slackened visibly, the Japanese delivered their assault. They met with a stubborn resistance. They were exposed to the fire of machine guns and rifles and they made frantic efforts to reach the crest of the slope. They leaped over trenches and embankments and tore down the entanglements in their path until at length they entered the fort. The Russian troops there refused to desert their position, even in the face of the superior numbers which confronted them, and desperate hand to hand fighting occurred inside the fort. Eventually almost the entire Russian garrison was either killed or wounded.

Military experts here are of the opinion that if the Japanese capture either Rihlung or Kikwan forts or the Itz and Anshu forts the doom of Port

Arthur is sealed, and for this reason the importance of the results obtained by the Japanese in their latest assaults upon the Russian positions is obvious.

One Killed and Two Injured. Blackfoot, Ida., Sept. 26.—As a result of an attempt by tramps to hold up a Japanese section gang here Sunday, Sheriff C. E. F. Sweet was killed, Section Foreman W. E. Fitzgerald fatally wounded, and an unknown tramp fatally injured.

GREETING FAIRBANKS

WESTERN FRIENDS OF ROOSEVELT

VELT MEET VICE PRESIDENTIAL CANDIDATE.

Mandan, N. D., Sept. 26.—Senator Fairbanks and party spent Sunday crossing the state of North Dakota. They were joined at St. Paul by Senator Hansbrough of this state, and leaving that city on the Northern Pacific at midnight Saturday night they reached Fargo at 7 o'clock.

The run from that point to Jamestown was made rapidly. At Jamestown the train was held for two hours in order to afford the vice presidential candidate and his friends an opportunity to attend church.

A special religious service was held at the opera house, which was attended by Senators Fairbanks, Dooliver and Hansbrough, who sat together in a private box.

At Dawson, the great duck hunting center of this state, there was a brief stop to allow Senator Hansbrough and friends to fill the larder of the dining car with canvas backs and teal. At Bismarck an hour was spent in driving about the city, and in a visit to Fort Lincoln.

Probably the most interesting experience of the twenty-four hours was had at Medora, in the extreme western portion of the state, which twenty years ago was for two years the home of President Roosevelt. He was engaged there in the cattle business and left many friends there who were at the railroad siding to meet the president's running mate and his companions when the train drew in. They gave the vice presidential candidate a characteristic welcome, and he expressed great pleasure over the meeting with them and over the experience generally. The night was spent at Glendive, Mont., the first stopping point in that state.

MOUNT SUIVIUS VERY ACTIVE.

Eruptions Increase in Force and in Destructiveness.

Naples, Sept. 26.—The eruption of Mount Vesuvius continues to increase in force and is now more violent than at any time since 1872. Red-hot stones are hurled to a height of 1,600 feet, falling down the flanks of the mountain with a deafening sound. The director of the observatory says that between 5 o'clock Sunday morning and 6 o'clock Sunday afternoon his instruments registered 1,844 violent explosions, and that one stone thrown out weighed about two tons. Lava flowing from the crater has melted the metal of the Funicular railway, destroyed the upper station and burned the wooden huts in which guides live. All vegetation within a radius of one mile of the crater has disappeared. Several earthquake shocks were felt Sunday. Some of the people in the surrounding villages have left their homes and are camped in the open air. The curiosity of tourists to approach the volcano is such that a large number of carabinieri guards have been detailed to prevent them crossing prescribed limits.

CONDITION IS VERY GRAVE.

Special Train Carries Medicine to Lady Curzon.

London, Sept. 26.—According to the Daily Mail, oxygen was administered to Lady Curzon Sunday and anti-streptococcus serum was injected hypodermically as an antidote to blood poisoning. These remedies were hurriedly fetched from London by a special train to Walmer castle, ordinary traffic being meanwhile held up to allow the special to pass.

Sir Thomas Barlow, in reply to late inquiries, said:

"Peritonitis has been considerably localized and the patient's condition is as comfortable as could be expected."

King Edward, who is a frequent inquirer, and receives constant information, made another sympathetic inquiry regarding the condition of Lady Curzon late Sunday night.

JUSTICE FOR RUSSIAN JEWS.

New Russian Official Gives His Pledge to Hebrews.

Vilna, Sept. 26.—Prince Sviatopolski-Mirsky, recently transferred from the office of governor general of Vilna to that of minister of the interior, before departing for his new post Saturday, delivered an address before members of the Jewish community. He said he was well acquainted with the wants of the Jews and would approach the important Jewish question, which would shortly come up for serious consideration, with a full knowledge of the problem it presented. He expected the Jews on their side to have perfect confidence in government measures. Jews might rest fully satisfied that, having been called to the fount of justice by the side of the emperor, he would see that justice was always done them.

FATAL TRAIN WRECK.

One Person Killed and Five Others Injured.

Rochester, N. Y., Sept. 26.—Six people who were injured in a wreck on the New York Central railroad a short distance east of Lyons early Sunday morning were brought to Rochester hospital. Three sleepers on the Western Express, a fast train bound from New York to Chicago, left the track because of a split rail and threw the passengers to the floors of the coaches. Just as the train came to a standstill a fast freight eastbound ran into the derailed cars. Mrs. Newman Erbs, wife of the vice president of the Pere Marquette railroad, who was brought here with both limbs cut off, died at the hospital. Mr. Erbs was bruised and injured.

SHOULD WATCH UNITED STATES.

Opinion of British Paper on Shipping Legislation.

London, Sept. 26.—The Morning Post, in a strong editorial on the shipping question, says that German energy is conspicuous, but that there is even a greater need to keep a careful eye on the shipping legislation of the United States. The paper suggests the withdrawal of the privilege from American owned vessels of freedom to the British coastal trade as a means to recovering a freedom to negotiate for reciprocal concessions.

Will Join Japanese Forces.

Tokio, Sept. 26.—Prince Charles of Hohenzollern arrived here Sunday and was given an official welcome. He will meet certain high Japanese officials Monday, after which he will join the Japanese forces in the field as the German representative.

The vote at Sibley (Pequot) for congressman was returned by the canvassing board as 22 for Buckman and 15 for Foster when it should have been 32 for Buckman. The returns show this, but in some manner the error crept in when the board made its returns.

THE SAME IN OTHER COUNTIES

Just to show that the same thing existed in other counties on primary election day as in this county the following extracts from a few up country papers are published:

"When is a democrat not a democrat?" inquires the Red Lake Falls Gazette, and

makes reply, "On primary election day, in Red Lake county."

If Itasca county furnishes a fair sample of the workings of the primary election law the first act of the next legislature should be to summarily remove it from the statute books. In this county party lines were utterly disregarded. Life-long democrats called for republican ballots to the number of several hundred. There were no contests among the democrats that attracted much attraction, and it was only those who placed principle above personal spite and manhood above Mammon that voted the democratic ticket in Grand Rapids.—Herald-Review.

The vote this year shows conclusively that voters care nothing for the commands of the law nor the mandates of the attorney general; thousands of democrats have voted for their republican friends.—Cass Lake Times.

It is evident that there will be a strong demand in the legislature this winter for a change in the statute which will protect each party from the votes of the others.—Bemidji Pioneer.

LOCAL NEWS NOTES.

SO DIFFERENT

Lots of Claims Like this but so Different—Local Proof is What Brainerd People Want.

There are a great many of them. Every paper has its share. Statements hard to believe, harder to prove.

Statements from far away places. What people say in Florida. Public expression from California. Ofttimes good indorsement there But of little service here at home. Brainerd people want local proof. The sayings of neighbors, friends and citizens.

Home indorsement counts. It disarms the skeptic; is beyond dispute.

This is the backing that stands behind every box of Doan's Kidney Pills. Here is a case of it.

Mrs. S. Brain of 125 South 9th street says: "Doan's Kidney Pills cannot be spoken of in too high terms. I suffered greatly from my back, the symptoms showing unmistakably that the kidneys were at fault. The secretions from those organs were scanty and caused some pain, the aching in my back was constant and exceedingly distressing. When my husband brought me Doan's Kidney Pills I was much in need of relief. I used them and in a comparatively short time the pain had disappeared and the improvement in my condition was general. The kidneys were quickly restored to health and performed their functions naturally."

This is the backing that stands behind every box of Doan's Kidney Pills. Here is a case of it.

Mrs. S. Brain of 125 South 9th street says: "Doan's Kidney Pills cannot be spoken of in too high terms. I suffered greatly from my back, the symptoms showing unmistakably that the kidneys were at fault. The secretions from those organs were scanty and caused some pain, the aching in my back was constant and exceedingly distressing. When my husband brought me Doan's Kidney Pills I was much in need of relief. I used them and in a comparatively short time the pain had disappeared and the improvement in my condition was general. The kidneys were quickly restored to health and performed their functions naturally."

AN ERROR CORRECTED.

The vote at Sibley (Pequot) for congressman was returned by the canvassing board as 22 for Buckman and 15 for Foster when it should have been 32 for Buckman. The returns show this, but in some manner the error crept in when the board made its returns.

THE SAME IN OTHER COUNTIES

Just to show that the same thing existed in other counties on primary election day as in this county the following extracts from a few up country papers are published:
"When is a democrat not a democrat?" inquires the Red Lake Falls Gazette, and

makes reply, "On primary election day, in Red Lake county."

If Itasca county furnishes a fair sample of the workings of the primary election law the first act of the next legislature should be to summarily remove it from the statute books. In this county party lines were utterly disregarded. Life-long democrats called for republican ballots to the number of several hundred. There were no contests among the democrats that attracted much attraction, and it was only those who placed principle above personal spite and manhood above Mammon that voted the democratic ticket in Grand Rapids.—Herald-Review.

The vote this year shows conclusively that voters care nothing for the commands of the law nor the mandates of the attorney general; thousands of democrats have voted for their republican friends.—Cass Lake Times.

It is evident that there will be a strong demand in the legislature this winter for a change in the statute which will protect each party from the votes of the others.—Bemidji Pioneer.

LOCAL NEWS NOTES.

Miss Christianson was at Merrifield spending Sunday.

There will be a meeting of the city council this evening.

Mrs. J. N. Nevers returned from St. Paul yesterday noon.

T. V. Grant returned this morning from a two weeks' trip to Cloquet, Duluth and other points east on the Northern Pacific.

Hon. A. L. Cole came in from Walker this noon.

Frank Berry was in the city between trains today.

J. L. Harrison came in from the west this afternoon.

S. G. Stewart was a passenger north this afternoon.

J. G. Gody left for a trip north on the M. & I. this afternoon.

Phil. Tardy left for Little Falls this afternoon on business.

Mrs. J. E. Sebring left for St. Paul this afternoon for a visit.

Miss Lucile Atherton returned today from a visit up the M. & I.

H. L. Mattson, the shoe man, was in the city between trains today.

E. H. Simmons was a passenger to the twin cities this afternoon.

Judge Holman, of Pequot, was an arrival from the north this afternoon.

Mrs. R. D. Holden and daughter left this afternoon for a visit with friends at Mankato.

Mrs. G. M. Gardner, of Minneapolis, who has been visiting with her parents, Mr. and Mrs. O. B. Hamline, left this afternoon for her home on No. 6.

A baby boy was born to Mr. and E. L. Orth this morning and Ed is the proud father that ever stepped into shoe leather and says the boy is a moose.

Mr. and Mrs. E. O. Webb left this afternoon for St. Louis to take in the big fair, after which they expect to visit at Mr. Webb's old home in Pennsylvania.

Adam Bardsley, of Bradford, Pa., at one time a resident of this city, is here on business and incidentally greeting old friends. He looks as hale and hearty as ever.

The two Knight Templar lodges will hold a union meeting in Templar hall, East Brainerd, on Friday evening. A literary program will be given and a lecture will be given by Rev. H. W. Knowles. The admission will be free.

J. W. Mangan, formerly with Edwards-Wood company, has returned to Brainerd to accept his old position as manager for the company here. He has been with the Coe Commission company as manager of the Little Falls office for a month or two. Mr. Mangan has many friends in the city who will be glad to hear that he has returned.

Mr. and Mrs. Samuel Johnson of Cross Lake are in the city at the home of Mr. and Mrs. Henry Moberg. On Saturday morning Mrs. Johnson gave birth to a bright baby boy, since the birth of the child her life has been almost despaired of, but her many friends in this city will be glad to learn that she is slowly improving. Mrs. Johnson was formerly Mrs. Hannah Wilson of this city.

J. Ralph Nevers was operated on this morning at 11 o'clock at St. Joseph's hospital for appendicitis. He withstood the ordeal bravely and reports from the hospital this afternoon are to the effect that he is getting along as well as could be expected. He has been ailing for some time and was taken with several attacks during the past six months. He returned last week from Larimore, N. D., where he has a position with the Great Northern, and it was decided to have the operation performed at once. Dr. Courtney, of the N. P. Sanitarium, performed the operation.

There was one lone drunk in police court this morning and he was administered the usual dose, \$7.40.

A BIG BLAZE IN A FURNITURE STORE

Store of Harry Katz on Laurel Street Caught Fire Saturday Night at 10 O'clock

ABOUT \$2,000 DAMAGE DONE

Fire Caught in Pile of Mattresses and Bedding and Spread Very Rapidly.

There was a rather serious fire at the furniture store of Harry Katz at the corner of Laurel and Eighth streets about 10 o'clock Saturday night. The loss it is thought will be about \$2,000 and Mr. Katz states that he has out \$1,500 insurance in all. The building is the one which was formerly occupied by Albert Angel and which was moved from the corner of Seventh and Laurel to its present location. It is a frame structure but has been repaired and put in shape for Mr. Katz who moved a brand new stock of furniture in not long ago. The upstairs was used to store mattresses and bed clothing and in the two big rooms on the second floor a large pile of this stuff had been amassed.

Mr. Katz states that he closed up about 10 o'clock Saturday night as usual and was in the barber shop getting shaved when the alarm was turned in. He hastened to the store when it was discovered that it was on fire and the flames then were issuing from the rear windows of the building in large volumes.

The firemen found it very difficult to get at the fire on account of the large amount of smoke but they did heroic work and the wonder is that the whole building and contents did not burn to the ground.

As it was the fire was confined to the one room at the rear of the building where the mattresses were and the damage was to the stock here from fire. Of course the damage on the first floor to the furniture and other stocks from water which leaked through the floor.

He says that he cannot account for the fire except that it might have started from an electric wire. No one had been upstairs with matches during the evening that Mr. Katz knows of. He is busy today taking an inventory of the stock and in a day or two he says he will know better where he is at.

J. A. ARNOLD'S CLOSE CALL

Came in Contact with a Live Wire on Saturday Which Nearly Resulted Seriously For Him.

J. A. Arnold knows what it is to dally with a live wire and from his experience of last Saturday he says he wants no more of it in his.

He had tied his horse in front of Weddell's bakery on Front street to a wire which hung from one of the poles and when he got ready to leave and started to untie the horse he in some way touched the tip of the wire which was not protected and he got a real heavy shock. After he got home he was sick nearly all the afternoon. The horse also got a shock of electricity from the same wire.

MORE HONOR FOR COMPANY F

Very Largely Represented in all the Shoots at Lake City--Three Quality on the State Team.

Information from Lake City is to the effect that Company F shared more extensively in the honors in the shooting the past week than any other company in the state.

As stated in THE DISPATCH a few days ago, Company F won out in the company shoot over the other members of the regiment. Then in the regimental shoot, four out of the ten men who were to qualify to shoot with the state team were from Company F. They were Francis J., Frank W. and Fred L. Britton and John Siebert. Then in the state team shoot three of the company—the three Brittons—were chosen, and considering the fact that there are only 12 men in the entire state team, it don't look so bad to have one quarter of the number from Brainerd.

IMPORTANT HEARINGS

On this Afternoon Before Judge McClenahan in Chambers Involving Fine Points

THE DULUTH WATER POWER CASE

A Motion for a New Trial in Case Against the Village of Grand Rapids This State

There are two important matters on before Judge McClenahan in chambers this afternoon and there are a large number of outside attorneys present who are interested. One of the matters is another hearing in the case of the Minnesota Canal & Power company condemnation proceedings which have to do with the gigantic scheme of harnessing the waters of the northern lakes and their tributaries to give Duluth a big water power system. The hearing this afternoon is really the tag end of the case, most of the time being consumed in taking testimony.

Another case is that of Robertson vs the village of Grand Rapids. It is a motion for a new trial. Robertson, who is the factory man, and who put in the electric light plant in at Grand Rapids, sued the village for a balance claimed to be due on the contract. The case was tried last June and a verdict was rendered for the plaintiff and against the village. Now the village appears to be heard on a motion for a new trial. There are some fine points involved.

SCHEDULE TO BE CONSIDERED

Schedule to be Paid Firemen Attending Fires Will Be One of the Questions to Be Considered Tonight.

Tonight at the meeting of the city council one of the important questions to be considered is the schedule, if one is established, to be paid the firemen of the city who turn out to the fires. It is understood some of the officials have been investigating the matter and some interesting data will be furnished regarding schedules paid firemen in other cities. It is proposed to pay each fireman attending a fire in this city a certain sum. It is contended that this will serve as an inducement for all firemen to turnout when there is a fire.

MUSIC AND DRAMA.

"A AMERICAN TRAMP."

A comedy drama with the striking title, "An American Tramp," is announced for tomorrow evenings' attraction at Brainerd opera house, Tuesday evening, Sept. 27. The piece is from the pen of Mr. E. E. Kidder, "An American Tramp" plays to such an extent that laughter will chase away tears ere they had time to fully leave their mysterious hiding places. Quaint conceits in comedy, stirring situation and startling climaxes are announced. A cast of well and favorably known players will enact its various roles. Scenic investitures of regal splendor will aid in depicting its locale, and effects are promised that will thrill, startle and enthrall every one of its beholders. The prices are 25, 50 and 75 cents, no extra for reserved seats if secured in advance.

MR. WILLIAM OWEN.

The seat sale for the performance at the Brainerd opera house on Wednesday night when William Owen and J. W. McConnell appear in the Lady of Lyons will open tomorrow morning at 10 o'clock at H. P. Dunn & Co.'s drug store.

William Owen is the artist who made such a decided hit in his revival of "The School Of Scandal" at this theatre. This season Mr. Owen and company will be seen in Sir Bulwer Lytton's Romantic Drama "The Lady Of Lyons" carrying the entire scenic equipment for its presentation. The period selected in which the scenes of the play are laid is at the beginning of the French Republic, when many rapid strides were made up the social ladder through the opportunities arising in the army. The Lady Of Lyons deals with the rapid rise of Claude Melnotte from the gardener's son to a Colonel in the French Army, giving the opportunity which Mr. Owen has taken advantage of for very elaborate costuming. The company supporting Mr. Owen contains many favorites of the past seasons including W. J. McConnell, Miss Camilla Reynolds and others of prominence.

Your blood goes through your body with jumps and bounds, carrying warmth and active life to every part, if you take Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. H. P. Dunn & Co.

ATTEMPTED ROBBERY

Someone Tried to Effect an Entrance to L. Hohman's Store Last Night But Dog Scared Them Away

When L. Hohman, the popular Palace of Sweets man, came down to his work this morning he discovered that someone had been pilfering about his place of business at the rear end and believes that an attempt was made to rob his store. There is a small shed which covers his engine at the rear of the building, the roof of which just reaches a window. Someone crawled up on top of this roof and broke the window pane, but was evidently scared away by the barking of Mr. Hohman's bird dog which was in the rear room of the building.

WILL WED IN OCTOBER

Announcement Made of the Approaching Marriage of Miss Agatha deLambert to Dr. C. N. McCloud

The following from the St. Paul Dispatch will be of interest to Brainerd people:

"An October wedding of wide interest in St. Paul will be that of Miss Anne Agatha de Lambert, daughter of the late R. M. de Lambert formerly of this city and Dr. Charles Naumann McCloud which is to be solemnized at 8 o'clock Tuesday evening, Oct. 18, at the Church of St. John the Evangelist. Rev. Mr. Sedgwick will read the service. Mr. Fairbough will arrange an elaborate program of music. Miss de Lambert will be attended by her sister, Miss Dorothy de Lambert, and Mr. Robert West McCloud will be the groomsmen. The guests—and there will be at least 1,000—will be seated by Dr. J. T. Christison, Dr. Armstrong, Mr. Charles McCloud, Montana; Mr. Harry Bayliss, Minneapolis; Mr. A. D. Bayliss, Omaha, and Capt. Keith Bayliss, Fort Leavenworth. After the church ceremony, there will be a small reception at the home of the bride's mother, Mrs. de Lambert, 834 Grand ave. As the family is just emerging from a long season of mourning this reception will be for relatives only. After a year of travel in New York and California, Dr. McCloud and his bride will return to St. Paul to live."

A BIG BLAZE IN A FURNITURE STORE

Store of Harry Katz on Laurel Street Caught Fire Saturday Night at 10 O'clock

ABOUT \$2,000 DAMAGE DONE

Fire Caught in Pile of Mattresses and Bedding and Spread Very Rapidly.

There was a rather serious fire at the furniture store of Harry Katz at the corner of Laurel and Eighth streets about 10 o'clock Saturday night. The loss it is thought will be about \$2,000 and Mr. Katz states that he has out \$1,500 insurance in all.

The building is the one which was formerly occupied by Albert Angel and which was moved from the corner of Seventh and Laurel to its present location. It is a frame structure but has been repaired and put in shape for Mr. Katz who moved a brand new stock of furniture in not long ago. The upstairs was used to store mattresses and bed clothing and in the two big rooms on the second floor a large pile of this stuff had been amassed.

Mr. Katz states that he closed up about 10 o'clock Saturday night as usual and was in the barber shop getting shaved when the alarm was turned in. He hastened to the store when it was discovered that it was on fire and the flames then were issuing from the rear windows of the building in large volumes.

The firemen found it very difficult to get at the fire on account of the large amount of smoke but they did heroic work and the wonder is that the whole building and contents did not burn to the ground.

As it was the fire was confined to the one room at the rear of the building where the mattresses were and the damage was to the stock here from fire. Of course the damage on the first floor to the furniture and other stocks from water which leaked through the floor.

He says that he cannot account for the fire except that it might have started from an electric wire. No one had been upstairs with matches during the evening that Mr. Katz knows of. He is busy today taking an inventory of the stock and in a day or two he says he will know better where he is at.

Came in Contact with a Live Wire on Saturday Which Nearly Resulted Seriously For Him.

J. A. Arnold knows what it is to dally with a live wire and from his experience of last Saturday he says he wants no more of it in his.

He had tied his horse in front of Weddell's bakery on Front street to a wire which hung from one of the poles and when he got ready to leave and started to untie the horse he in some way touched the tip of the wire which was not protected and he got a real heavy shock. After he got home he was sick nearly all the afternoon. The horse also got a shock of electricity from the same wire.

MORE HONOR FOR COMPANY F

Very Largely Represented in all the Shoots at Lake City---Three Qualify on the State Team.

Information from Lake City is to the effect that Company F shared more extensively in the honors in the shooting the past week than any other company in the state.

As stated in THE DISPATCH a few days ago, Company F won out in the company shoot over the other members of the regiment. Then in the regimental shoot, four out of the ten men who were to qualify to shoot with the state team were from Company F. They were Francis J., Frank W. and Fred L. Britton and John Siebert. Then in the state team shoot three of the company—the three Brittons—were chosen, and considering the fact that there are only 12 men in the entire state team, it don't look so bad to have one quarter of the number from Brainerd.

THE DULUTH WATER POWER CASE

A Motion for a New Trial in Case Against the Village of Grand Rapids This State

There are two important matters on before Judge McClenahan in chambers this afternoon and there are a large number of outside attorneys present who are interested. One of the matters is another hearing in the case of the Minnesota Canal & Power company condemnation proceedings which have to do with the gigantic scheme of harnessing the waters of the northern lakes and their tributaries to give Duluth a big water power system. The hearing this afternoon is really the fag end of the case, most of the time being consumed in taking testimony.

Another case is that of Robertson vs the village of Grand Rapids. It is a motion for a new trial. Robertson, who is the factory man, and who put in the electric light plant in at Grand Rapids, sued the village for a balance claimed to be due on the contract. The case was tried last June and a verdict was rendered for the plaintiff and against the village. Now the village appears to be heard on a motion for a new trial. There are some fine points involved.

SCHEDULE TO BE CONSIDERED

Schedule to be Paid Firemen Attending Fires Will Be One of the Questions to Be Considered Tonight.

Tonight at the meeting of the city council one of the important questions to be considered is the schedule, if one is established, to be paid the firemen of the city who turn out to the fires. It is understood some of the officials have been investigating the matter and some interesting data will be furnished regarding schedules paid firemen in other cities. It is proposed to pay each fireman attending a fire in this city a certain sum. It is contended that this will serve as an inducement for all firemen to turnout when there is a fire.

MUSIC AND DRAMA.

"A AMERICAN TRAMP."

A comedy drama with the striking title, "An American Tramp," is announced for tomorrow evenings' attraction at Brainerd opera house, Tuesday evening, Sept. 27. The piece is from the pen of Mr. E. E. Kidder, "An American Tramp" plays to such an extent that laughter will chase away tears ere they had time to fully leave their mysterious hiding places. Quaint conceits in comedy, stirring situation and startling climaxes are announced. A cast of well and favorably known players will enact its various roles. Scenic investitures of regal splendor will aid in depicting its locale, and effects are promised that will thrill, startle and enthrall every one of its beholders. The prices are 25, 50 and 75 cents, no extra for reserved seats if secured in advance.

MR. WILLIAM OWEN.

The seat sale for the performance at the Brainerd opera house on Wednesday night when William Owen and J. W. McConnell appear in the Lady of Lyons will open tomorrow morning at 10 o'clock at H. P. Dunn & Co.'s drug store.

William Owen is the artist who made such a decided hit in his revival of "The School Of Scandal" at this theatre. This season Mr. Owen and company will be seen in Sir Bulwer Lytton's Romantic Drama "The Lady Of Lyons" carrying the entire scenic equipment for its presentation. The period selected in which the scenes of the play are laid is at the beginning of the French Republic, when many rapid strides were made up the social ladder through the opportunities arising in the army. The Lady Of Lyons deals with the rapid rise of Claude Melnotte from the gardener's son to a Colonel in the French Army, giving the opportunity which Mr. Owen has taken advantage of for very elaborate costuming. The company supporting Mr. Owen contains many favorites of the past seasons including W. J. McConnell, Miss Camilla Reynolds and others of prominence.

Someone Tried to Effect an Entrance to L. Hohman's Store Last Night But Dog Scared Them Away

When L. Hohman, the popular Palace of Sweets man, came down to his work this morning he discovered that someone had been pilfering about his place of business at the rear end and believes that an attempt was made to rob his store. There is a small shed which covers his engine at the rear of the building, the roof of which just reaches a window. Someone crawled up on top of this roof and broke the window pane, but was evidently scared away by the barking of Mr. Hohman's bird dog which was in the rear room of the building.

SIXTY-TWO ARE DEAD

SEVERAL OTHERS EXPECTED TO DIE OF INJURIES RECEIVED IN TRAIN WRECK.

OVER A HUNDRED ARE HURT

FRAIL COACHES CRUSHED INTO FRAGMENTS BY THE HEAVY CARS BEHIND THEM.

Knoxville, Tenn., Sept. 26.—The death list as a result of the fearful wreck on the Southern railroad near Newmarket Saturday has now grown to sixty-two, and it will probably exceed seventy before Tuesday, as many of the injured are in a serious condition and more deaths will occur at the hospital. Sunday there were six deaths at that institution.

A force of 150 men toiled all day long Sunday at the scene of the wreck. Before 2 o'clock Sunday morning the track was cleared to through trains, but it required many hours to clear the debris. Engineers Parrott and Kline were found beneath their engines, but their bodies were not badly crushed. Small fragments of bodies were found in many instances Sunday, but it is thought that they belong to bodies already found and brought to this city.

The cause of the loss of life in the heavy eastbound train was explained Sunday. It seems that the second coach ploughed its way into a bank in such a manner that the cars were jammed into it and, pushed on by the weight of heavy Pullmans, were crushed like eggshells.

Physicians at the hospital state that of the long list of injured which they have in their care, it is probable that not more than four will die.

About 125 persons were injured.

The two passenger trains collided eighteen miles east of Knoxville.

According to the best information the wreck was due to a failure of the crew of the westbound train to carry out its orders to meet the eastbound passenger at Hodge's station. Instead of making the siding at Hodge's, it proceeded toward Knoxville, with the result that a collision occurred.

Engineer May Have Been Dead.

The possibility exists that the engineer of the westbound train may have been asleep or dead. But nothing is known save that the orders were not obeyed.

Both trains were running on time and at thirty miles an hour. The locomotives were demolished and the major portions of both trains were wrecked with the exception of the Pullman cars, none of which left the track.

The wrecked coaches were filled with dead and injured and the rescue work was accomplished with great difficulty. A special relief train left Knoxville as soon as possible. The removal of the wreckage and the wounded and dead commenced as soon as the train reached the scene.

Some of the bodies may not be recovered and many remain unidentified.

All of the killed live in the South and most of the injured are residents of Tennessee. Of the persons injured only a few suffered serious wounds. Most of the wounded sustained cuts, bruises and shocks that ought not to result seriously.

The westbound passenger from Bristol was a light local, while the eastbound train carried Pullmans, two day coaches and a mail and baggage car. The greatest loss of life occurred in the eastbound train. In the westbound only the engine crew were killed.

Piles Can Be Cured

By Internal Treatment

Without the Aid of Narcotics or the Knife

You who suffer with piles know what a glorious boon it would be to you to be absolutely and painlessly cured. You know from actual experience that salves, ointments and other local applications do not cure. You may get relief, but you keep on suffering.

There is a cause for every human ill. Remove the cause and you cure the complaint. Piles have two distinct causes: First, congestion of the liver; second, constipation resulting from poor digestion.

Dr. Perrin's Pile Specific

The Internal Remedy

absolutely removes these causes by increasing the flow of digestive juices in the stomach, and relieving the congestion of the liver. It is a tonic for the entire bowel system and helps each particular member of this system to work easily and naturally.

You simply take a teaspoonful of this positive, internal remedy three times a day before each meal. It is pleasant to the taste and absolutely free from opium, cocaine or other narcotics. It is not a palliative or temporary remedy; it produces a positive, radical and lasting cure.

Dr. Perrin's Pile Specific is sold under an Absolute Guarantee

to cure any case of blind, bleeding, itching or internal piles, no matter how chronic or aggravated it may be. Out of over 10,000 cases there are only three on record where a positive cure has not been made.

Dr. Perrin's Pile Specific can be procured of any reliable druggist under an iron-clad agreement to refund your money should you take two \$1.00 bottles of the remedy without receiving positive benefit.

HAMLET'S MALADY.

A Study of the Melancholy Dane and His Moods.

The tragedy of Hamlet is that a man of a peculiar introspective temperament is called upon to settle a practical crisis. Hamlet knew this very well himself, and that makes the tragedy deeper. Brutus never doubted when once his decision was taken that he was the right man to cure the evils of Rome; Hamlet doubted from the very beginning.

The times are out of joint. O cursed spite That ever I was born to set them right.

He was too fine, too distinguished, too intellectual, a character to be the rough instrument which fate demanded. He has the fatal malady of analyzing his own motives, which is generally destructive of action. If you once begin asking yourself what will be the results and consequences of a definite act, you will find that at the moment of action your will is paralyzed by excess of scrupulosity, as Hamlet's was when with his drawn sword he saw his uncle praying. It was a disease of will from which Hamlet was suffering. In any other times it would not have been so fatal. In this particular time, when he was called upon to do a specific act—to avenge his father and kill the usurper—it is not he, but a man rather of the Fortinbras build, who will be the savior of society. Observe, too, that, like many intellectual men, he cannot be sure of his own moods. He sees the ghost of his murdered father, but is it an honest ghost, is it really his father's spirit? Hamlet believes in it on the battlefields of Elsinore, but he entirely disbelieves it in another mood, when despite the evidences of his senses he talks of "the bourn from which no traveler returns." The traveler who had returned is dismissed apparently as a fantasy of his brain. And these supernatural visitings in such an analytic and retrospective mind do not, as a matter of fact, supply him with the motive for his subsequent action. The ghost can make him put on an antic disposition, play with such creatures as Rosencrantz and Guildenstern, deride the senile humors of Polonius and lessen the torrent of his words against his mother. But what the ghost cannot do is to make him kill his uncle. He murders him at last, more or less accidentally, because his mother was poisoned and Laertes had played foul in the fencing bout. So curiously destructive of strong, practical volition is an intellectual malady when it has grown morbid—the tendency to ward introspection, self analysis, metaphysical speculation.—W. L. Courtney in National Review.

Naval Cadets.

FOUR MEN DROWNED.

Their Boat Upset During a Squall Off
Albert Head, B. C.

Victoria, B. C., Sept. 26.—The cap-
tain of the British ship Blytheswood,
now in Royal Roads awaiting charter,
took a party of seven friends with
him Sunday afternoon for a sailing
cruise in one of the ship's boats. She
upset off Albert Head in a squall and
four of the party were drowned, in-
cluding the sergeant major of marines
of H. M. S. Grafton and the second
mate of the Blytheswood. A steam
launch sighted the overturned boat
with the survivors clinging to it and
rescued them.

Piles Can
Be Cured

By Internal Treatment
Without the Aid of Narcotics or the Knife

You who suffer with piles know what a
glorious boon it would be to you to be abso-
lutely and painlessly cured. You know from
actual experience that salves, ointments and
other local applications do not cure. You
may get relief, but you keep on suffering.

There is a cause for every human ill. Re-
move the cause and you cure the complaint.
Piles have two distinct causes: First, con-
gestion of the liver; second, constipation re-
sulting from poor digestion.

Dr. Perrin's
Pile Specific

The Internal Remedy

absolutely removes these causes by increas-
ing the flow of digestive juices in the stom-
ach, and relieving the congestion of the
liver. It is a tonic for the entire bowel sys-
tem and helps each particular member of
this system to work easily and naturally.

You simply take a teaspoonful of this pos-
itive, internal remedy three times a day be-
fore each meal. It is pleasant to the taste
and absolutely free from opium, cocaine or
other narcotics. It is not a palliative or
temporary remedy; it produces a positive,
radical and lasting cure.

Dr. Perrin's Pile Specific is sold under an
Absolute Guarantee

to cure any case of blind, bleeding, itching or internal
piles, no matter how chronic or aggravated it may be.
Out of over 10,000 cases there are only three on record
where a positive cure has not been made.

Dr. Perrin's Pile Specific can be procured of any re-
liable druggist under an iron-clad agreement to refund
your money should you take two \$1.00 bottles of the
remedy without receiving positive benefit.

HAMLET'S MALADY.

A Study of the Melancholy Dane and
His Moods.

The tragedy of Hamlet is that a man
of a peculiar introspective tempera-
ment is called upon to settle a practical
crisis. Hamlet knew this very well
himself, and that makes the tragedy
deeper. Brutus never doubted when
once his decision was taken that he
was the right man to cure the evils of
Rome; Hamlet doubted from the very
beginning.

The times are out of joint. O cursed spite
That ever I was born to set them right.

He was too fine, too distinguished,
too intellectual, a character to be the
rough instrument which fate demand-
ed. He has the fatal malady of analyz-
ing his own motives, which is gener-
ally destructive of action. If you once
begin asking yourself what will be the
results and consequences of a definite
act, you will find that at the moment
of action your will is paralyzed by ex-
cess of scrupulosity, as Hamlet's was
when with his drawn sword he saw his
uncle praying. It was a disease of will
from which Hamlet was suffering. In
any other times it would not have been
so fatal. In this particular time, when
he was called upon to do a specific act
—to avenge his father and kill the
usurper—it is not he, but a man rather
of the Fortinbras build, who will be
the savior of society. Observe, too,
that, like many intellectual men, he
cannot be sure of his own moods. He
sees the ghost of his murdered father,
but is it an honest ghost, is it really
his father's spirit? Hamlet believes in
it on the battlefields of Elsinore, but
he entirely disbelieves it in another
mood, when despite the evidences of
his senses he talks of "the bourn from
which no traveler returns." The travel-
er who had returned is dismissed ap-
parently as a fantasy of his brain. And
these supernatural visitings in such an
analytic and introspective mind do not,
as a matter of fact, supply him with
the motive for his subsequent action.
The ghost can make him put on an an-
tic disposition, play with such crea-
tures as Rosencrantz and Guildenstern,
deride the senile humors of Polonius
and lessen the torrent of his words
against his mother. But what the
ghost cannot do is to make him kill his
uncle. He murders him at last, more
or less accidentally, because his moth-
er was poisoned and Laertes had play-
ed foul in the fencing bout. So curi-
ously destructive of strong, practical
volition is an intellectual malady when
it has grown morbid—the tendency to
ward introspection, self analysis, mor-
taphysical speculation.—W. L. Courte-
nay in National Review.

SENATOR HOAR IS DYING.

Slowly Succumbing to Effects of His Long Illness.

Worcester, Mass., Sept. 26.—The family of Senator George F. Hoar, who has been dangerously ill for several weeks, Sunday night issued a bulletin showing that the senator is gradually succumbing to the effects of his long illness. Only the immediate members of the senator's family are admitted to the sick chamber, and he spends most of his time asleep.

BAD BLOOD AND INDIGESTION ARE DEADLY ENEMIES TO GOOD HEALTH. BUCKLE BLOOD BITTERS DESTROYS THEM.

STIMULATING TO FALL TRADE.

Cool Weather Proves Beneficial to Both Wholesale and Retail Lines.

New York, Sept. 24.—Bradstreet's weekly review of trade says cool weather, while retarding or injuring some late crops, has been stimulating to fall trade, both wholesale and retail, which shows an apparent increase in volume over a year ago. The improvement is most marked in dry goods, clothing, groceries, shoes and hardware. Distributive trade is better in the Northwest, portions of the East and very generally throughout the South. The Central West also shows a continuance of the improvement noted last week and a widespread moderate betterment in collections is a feature deserving special mention. A disposition is shown on the part of farmers to hold their products for better prices, this being true in many sections, notably the South and the Northwest. The labor situation is rather quiet on the whole, although some strikes continue unsettled. Among the industries some improvement is to be noted in the cruder forms of iron; buying of pig iron is rather better; particularly in portions of the West, but finished products fail to respond liberally to recent price reductions. Some Eastern industries report improvement.

SIXTY-TWO ARE DEAD

SEVERAL OTHERS EXPECTED TO DIE OF INJURIES RECEIVED IN TRAIN WRECK.

OVER A HUNDRED ARE HURT

FRAIL COACHES CRUSHED INTO FRAGMENTS BY THE HEAVY CARS BEHIND THEM.

Knoxville, Tenn., Sept. 26.—The death list as a result of the fearful wreck on the Southern railroad near Newmarket Saturday has now grown to sixty-two, and it will probably exceed seventy before Tuesday, as many of the injured are in a serious condition and more deaths will occur at the hospital. Sunday there were six deaths at that institution.

A force of 150 men toiled all day long Sunday at the scene of the wreck. Before 2 o'clock Sunday morning the track was cleared to through trains, but it required many hours to clear the debris. Engineers Parrott and Klune were found beneath their engines, but their bodies were not badly crushed. Small fragments of bodies were found in many instances Sunday, but it is thought that they belong to bodies already found and brought to this city.

The cause of the loss of life in the heavy eastbound train was explained Sunday. It seems that the second coach ploughed its way into a bank in such a manner that the other cars were jammed into it and, pushed on by the weight of heavy Pullmans, were crushed like eggshells.

Physicians at the hospital state that of the long list of injured which they have in their care, it is probable that not more than four will die.

About 125 persons were injured. The two passenger trains collided eighteen miles east of Knoxville.

According to the best information the wreck was due to a failure of the crew of the westbound train to carry out its orders to meet the eastbound passenger at Hodge's station. Instead of making the siding at Hodge's, it proceeded toward Knoxville, with the result that a collision occurred.

Engineer May Have Been Dead.

The possibility exists that the engineer of the westbound train may have been asleep or dead. But nothing is known save that the orders were not obeyed.

Both trains were running on time and at thirty miles an hour. The locomotives were demolished and the major portions of both trains were wrecked with the exception of the Pullman cars, none of which left the track.

The wrecked coaches were filled with dead and injured and the rescue work was accomplished with great difficulty. A special relief train left Knoxville as soon as possible. The removal of the wreckage and the wounded and dead commenced as soon as the train reached the scene.

Some of the bodies may not be recovered and many remain unidentified.

All of the killed live in the South and most of the injured are residents of Tennessee. Of the persons injured only a few suffered serious wounds. Most of the wounded sustained cuts, bruises and shocks that ought not to result seriously.

The westbound passenger from Bristol was a light local, while the eastbound train carried Pullmans, two day coaches and a mail and baggage car. The greatest loss of life occurred in the eastbound train. In the westbound only the engine crew were killed.

WHITEMAN AGAIN ARRESTED.

Former Minnesota Man Gets Into More Trouble.

St. Louis, Sept. 26.—Alonzo J. Whiteman, who claims to be a former mayor of Duluth, Minn., a former speaker of the house of representatives of Minnesota, and a member of that body for six years, was arrested Sunday night on information from Chief of Police Bull of Buffalo, N. Y., that he was wanted there to answer a charge of forgery. Whiteman declares he is innocent of the charge.

CONGRESS OF ART AND SCIENCE.

Large Attendance at the Closing Session at St. Louis.

St. Louis, Sept. 26.—The international congress of arts and sciences, which during the past week has held more than 150 meetings on the exposition grounds, concluded Sunday with two meetings of the religious sections, held in festival hall. A large attendance, together with an excellent programme of speakers, marked a fitting close to the international congress.

COSTLY SMELTER DESTROYED.

Explosion in Arizona Blows Up Valuable Property.

Prescott, Ariz., Sept. 26.—An explosion of molten slag Saturday night caused the total destruction of the Val Verde smelter, twenty miles east of Prescott. The plant was of 300 tons capacity and cost \$175,000.

Rear Admiral Gilmore Dead.

New York, Sept. 26.—Rear Admiral Fernando P. Gilmore died here Sunday of Bright's disease, which he contracted during active campaigning in the Philippines and because of which he was retired from active duty two years ago. He was born Aug. 15, 1848. He commanded the monitor Monadnock in the Spanish American war.

Breaks a World's Record.

New York, Sept. 26.—Louis Mang broke the world's record of 35 feet, 8 1/2 inches for three standing jumps, held by Ray Ewry of the New York Athletic club, by an inch and a quarter Sunday at the Mohawk and Mott Athletic clubs' games at Mott Haven.

FOR CHRISTIAN UNITY.

Archbishop of Canterbury Makes an Appeal at Washington.

Washington, Sept. 26.—The Right Hon. and Most Rev. Randall Thomas Davidson, archbishop of Canterbury, sounded a ringing appeal for Christian unity at the open air service held in the cathedral grounds at Mount St. Albans Sunday afternoon. Not since President McKinley was present at the erection of the peace cross on the same spot after the war with Spain have as many people gathered at the picturesque spot. The crowd was estimated at from 20,000 to 25,000.

Mrs. Roosevelt, the British ambassador, Sir Henry Mortimer Durand, with Mrs. Davidson, General and Mrs. Claike and Mrs. Hitchcock had seats to the right of the platform, and joined heartily in the service.

OMAHA WINS THE PENNANT.

Lands the Championship of the Western Baseball League.

Omaha, Sept. 26.—The Western league season closed Sunday with games at Omaha, Des Moines and Sioux City. Both Denver and Colorado Springs lost a game while the local team won two, giving them a clear margin in the pennant race. While there has been no official announcement, the Omaha team closes the season with a good lead, being first with a percentage of .604; Denver, second, .589; and Colorado Springs, third, .580; Des Moines, .540; St. Joseph, .379; Sioux City, .306.

Piles Can Be Cured

By Internal Treatment

Without the Aid of Narcotics or the Knife

You who suffer with piles know what a glorious boon it would be to you to be absolutely and painlessly cured. You know from actual experience that salves, ointments and other local applications do not cure. You may get relief, but you keep on suffering.

There is a cause for every human ill. Remove the cause and you cure the complaint. Piles have two distinct causes: First, congestion of the liver; second, constipation resulting from poor digestion.

Dr. Perrin's Pile Specific

The Internal Remedy

absolutely removes these causes by increasing the flow of digestive juices in the stomach, and relieving the congestion of the liver. It is a tonic for the entire bowel system and helps each particular member of this system to work easily and naturally.

You simply take a teaspoonful of this positive, internal remedy three times a day before each meal. It is pleasant to the taste and absolutely free from opium, cocaine or other narcotics. It is not a palliative or temporary remedy; it produces a positive, radical and lasting cure.

Dr. Perrin's Pile Specific is sold under an Absolute Guarantee

to cure any case of blind, bleeding, itching or internal piles, no matter how chronic or aggravated it may be. Out of over 10,000 cases there are only three on record where a positive cure has not been made.

Dr. Perrin's Pile Specific can be procured of any reliable druggist under an iron-clad agreement to refund your money should you take two \$1.00 bottles of the remedy without receiving positive benefit.

HAMLET'S MALADY.

A Study of the Melancholy Dane and His Moods.

The tragedy of Hamlet is that a man of a peculiar introspective temperament is called upon to settle a practical crisis. Hamlet knew this very well himself, and that makes the tragedy deeper. Brutus never doubted when once his decision was taken that he was the right man to cure the evils of Rome; Hamlet doubted from the very beginning.

The times are out of joint. O cursed spite That ever I was born to set them right.

It was too fine, too distinguished, too intellectual, a character to be the rough instrument which fate demanded. He has the fatal malady of analyzing his own motives, which is generally destructive of action. If you once begin analyzing yourself what will be the results and consequences of a definite act, you will find that at the moment of action your will is paralyzed by excess of scrupulosity, as Hamlet's was when with his drawn sword he saw his uncle praying. It was a disease of will from which Hamlet was suffering. In any other times it would not have been so fatal. In this particular time, when he was called upon to do a specific act—to avenge his father and kill the usurper—it is not he, but a man rather of the Fortinbras build, who will be the savior of society. Observe, too, that, like many intellectual men, he cannot be sure of his own moods. He sees the ghost of his murdered father, but is it an honest ghost, is it really his father's spirit? Hamlet believes in it on the battlements of Elsinore, but he entirely disbelieves it in another mood, when despite the evidences of his senses he talks of "the bourn from which no traveler returns." The traveler who had returned is dismissed apparently as a fantasy of his brain. And these supernatural visitings in such an analytic and introspective mind do not, as a matter of fact, supply him with the motive for his subsequent action. The ghost can make him put on an antic disposition, play with such creature as Rosencrantz and Guildenstern, decide the senile humors of Polonius and lessen the torrent of his words against his mother. But what the ghost cannot do is to make him kill his uncle. He murders him at last, more or less accidentally, because his mother was poisoned and Laertes had plotted foul in the fencing bout. So curiously destructive of strong, practical volition is an intellectual malady when it has grown morbid—the tendency toward introspection, self analysis, metaphysical speculation.—W. L. Courtney in National Review.

Naval Cadets.

To enter the Naval academy at Annapolis a boy must be between fifteen and twenty years of age, physically sound, well formed and of robust constitution. He will be examined in reading, writing, spelling, arithmetic, geography, English grammar, United States history, history of the world, algebra through quadratic equations and plane geometry.

He must sign articles by which he binds himself to serve in the United States navy eight years, including the time of probation at the academy, unless sooner discharged. His pay, which begins at date of admission, is \$500 a year.
